By Bob Olsen

Ski Club business is running along smoothly. We finished last year in a rather healthy financial condition. Building on this base, your officers are planning an **EXPANDED TRIP SCHEDULE FOR 1975-1976**. More on this in the months to come.

Trip Chairpersons and assistants have been chosen for next season

and they are busy making arrangements for our cold weather comfort. Every year we lose a couple of trip leaders due to business commitments or illness. When this happens, a person on the trip is usually selected to take the place of the fallen leader. The moral of the story: if you are interested in leading a trip, you might be selected on the basis of helping the trip chairperson in the months preceding the trip.

NOW is the time to help **SELL ADVERTISING** space in our **AWARD WINNING SITZMARKE**. With over 1300 members receiving our monthly publication, we have an exceptionally fine media for reaching Houston consumers. Please contact **Cynthia Wright, Janis Hughen** or myself with suggestions for new advertisers.

Sy Liebergot and **Layna Adams** have prepared an **INFORMATION SHEET FOR PROSPECTIVE MEMBERS**. Please let Sy know about any people who would like more information on joining the Club. He will then send the information sheet and an application form to the prospective member.

CONTRIBUTIONS

The **Sitzmarke** is always on the look-out for articles, cartoons, photos and news items club members want to share with the rest of the organization. To assure that your contribution gets published, please follow these simple guidelines:

- 1) Type all copy, double spaced.
- 2) Identify all persons in the photographs and indicate clearly who is who. Put your name on the back of the photo to assure it is returned to you.
- 3) Check page 2 for a list of **Sitzmarke** deadlines and be sure you have your article in by that time.
- 4) Send all copy and photos to

Jane and Jerry Kearby

Many of us today housed in the concrete environment of the city feel the "call of the wild", but not many of us respond as enthusiastically as JANE and JERRY KEARBY. Last summer they went backpacking in Montana and before that scuba diving in Cozumel. Closer to home they frequently fish, hunt, camp, canoe, and play tennis. Jerry explains that he likes anything to do with the outdoors as long as "it's not in the backyard."

Many of you might remember Jane Kearby as Jane Morgan. She and Jerry met in Steamboat on a Club trip. Jerry says she "picked him up on the slopes," but Jane tells a different story. Jerry credits himself with having taught Jane to stop on skis. Jane had only skied once before meeting Jerry. Her approach to skiing was strictly downhill racer style. Not knowing how to stop, she simply plummeted straight down until she reached the bottom. Consequently, all of Jane's ski runs were very short and very quick. Looking back, Jane says of her earlier ski days, "There's a fine line between courage and stupidity." Seriously, Jane and Jerry are both excellent skiers. In their five years with the Club, averaging three trips a year, neither of them has ever been injured. They credit this to having taken lessons and having received good instructions as well as

not skiing when tired. Jerry emphasizes that no one is ever too old to start skiing. He did not start skiing until he was forty. He took up skiing simply because he had done everything else and skiing looked like fun. He got on skis, fell the first time and fell in love with it.

Both Jane and Jerry have been active in the Club. Jerry served as president of the Texas Ski Council this past 1974-75 season. He was also SCSC Vice President of Programs 1973-74 and a trip chairman 1972-73. One endeavor, for which we will always be grateful to Jerry, was his instituting the White Water Canoe Trips which we all enjoy so much. Jane served as Club Secretary 1972-73 and was on the 1974 Nominating Committee. Both have been lift-liners and have helped at the membership table.

Jane is a native of Kansas. After college at Kansas State, Jane spent a number of years in California in a most "fun" job. She was employed in sales and public relations for KLM Royal Dutch Airlines. Her first year there, she was required to learn airline operations by taking a series of familiarization trips. This meant a week or two in such cities as Madrid, Paris, Berlin, Shannon, and of course, Amsterdam. (KLM's headquarters are in Amsterdam.) Eventually tired of jumping from country to country, Jane decided to locate more permanently in Houston. She went to work as a secretary for Boeing at NASA. For the past three years, she has been secretary for the chairman of the board at Western Bank.

Jerry is a native Texan, hailing from Fort Worth. A veterinarian by profession, he came to Houston after graduating from Texas A&M and has been practicing in the greater Houston area ever since. He specializes in small animals.

Currently, the Kearby's are "into photography." Jane enrolled in a photography course hoping to be able to take better pictures of their outdoor trips. We'll be looking forward to the pictures they will take on the slopes next year. Who knows? If Jane gets good enough, she might get a picture of Jerry doing that famous Aggie Slalom!

think snow

by Bob Allgeier

As you all know, next ski season's SCSC staff took office a month earlier this year than last, and it was just barely in time to plug the proverbial hole in the dike!

However, even with the competition in full swing for lodging at Aspen and aircraft being diverted to New Orleans for Mardi Gras, an exciting series of trips has emerged. Some new ideas have been advanced, and along with some old ideas that have been kept and strengthened, SCSC should have a very successful skiing season. A really first class team of workers have recently been selected for next year's Trip Chairpersons.

The club will sponsor a total of twelve trips on the 1975-1976 season. These include terrific dollar values at Texas Ski Week and Crested Butte in contrast with a luxury trip to Banff and one to Aspen with all the frills. These trips alone would comprise a good itinerary for a small club of fairly good skiers. But for our large club of enthusiastic hot doggers and bar skiers, it's just the beginning. We'll go to Telluride, Park City, Vail and much more!!

All of which brings me to my message: "Save Your Money This Summer!" And tune in again next month for the exciting conclusion, with dates and times, to the Great '75-'76 Trip Itinerary Mystery.

notices

SCSC Canoe Trip to Armand Bayou scheduled for May 31, 1975 was called off due to high water.

Apres Ski will not appear in this issue . . . Sammy Sitzmarke is on vacation.

WHAT IS RMD DOING FOR THE HOUSTON SKIER?

by Harry Gaston

An article in the latest *Rocky Mountain Skiing* (the monthly publication of RMD) called attention to a bill pending before the Colorado State Legislature which will impose a 7% tax on all ski activities such as lift tickets, ski lessons, and equipment rentals. The bill as originally introduced included all recreational activities, but due to pressures exerted by concerned citizens, the bill was amended to exclude all amusements except SKI-ING.

The amended bill has been passed by the House and has been sent to the Senate (this was in May). Final passage of this bill would add up to \$15 to the cost of each ski trip Space City Ski Club offers to its members. The article mentioned above urged all skiers to write members of the Colorado Senate Business Affairs & Labor Committee (whose members it identified) and protect passage of this bill.

Did you get this urgent information which will affect you financially? Did you have an opportunity to protect this discriminatory legislation? If you are a member of RMD, the answer to these questions is yes. This is only one area in which RMD (Rocky Mountain Division) of USSA (United States Ski Association) benefits all skiers, including the Houston skiers. A strong RMD can exert its influence in many areas.

Your membership in RMD not only helps it become a stronger organization, but provides you with important information regarding pending legislation, ski safety, ski areas, other ski clubs, racing and many other interesting subjects. What does your membership cost? NOTHING if you plan to ski the Rocky Mountains this winter. The \$5 annual dues is immediately returned through a \$5 lift ticket discount. Even if you do not plan to

ski this winter, you could not find a better way to contribute to the support of better skiing and a better U.S. Ski Team.

It is my hope that at least one-fourth of our 1,300 members, or 300 plus persons, will join RMD this season. We are one of the largest ski clubs in the country and last year less than 50 of our members supported RMD. This compares with 861 from Kansas City Ski Club and 549 from Phoenix Ski Club. We must do better. Use the application in this issue of your Sitzmarke and support RMD NOW!!!

pole position

June 10, 1975

Bob Olsen, President
Space City Ski Club

P. O. Box 22567
Houston, Texas 77027

Dear Bob,

Unfortunately, the ski season 1974-1975 seemed to be more accident plagued than any other year. At several meetings last year, Harry Gaston expressed concern about the increased injury frequency. I came home from one of those meetings and wrote my analysis of the problem.

There is no doubt in my mind that this problem is directly related to the lack of realism which the meetings convey to the not yet begun or to the beginning skier. The programs are not realistic, practical or educational due to the films provided by the airlines or ski areas which show only freestyle and powder skiing. In the three years that I have been attending meetings, only one has had an educational speaker and only one has had a demonstration. Or did I see that demonstration at a YHC (Young Houstonian Club) beer bust at the Downtown V.I.?

The beginner skier should have some time under his belt which has informed him of the physical stress, levels of skiing ability and the mixture of good common sense and courage required on each slope. The "Fantasy Flicks" do not make the new skier aware of the importance

of the fact that he must start slow and not ski above his abilities or physical condition. They do not suggest that it is better to fall down rather than to try to pull yourself back into control time after time. No doubt, the fall is as important to a novice as the snowplow -- and who told this novice how to put on the equipment and adjust it before he went out for his first snowplow run? Has he been made aware that snow skiing is pure work for the beginner and more difficult than water skiing?

O.K. So it is good for advertisements in the Sitzmarke to invite air carriers and ski areas to donate films. Well, Ruth Roy and/or J. Rich may be able to get some manufacturers' representatives to come in and talk equipment and how to make sure that the skier gets the proper equipment for his needs and specific application. These reps could give insight into why and how equipment is adjusted. That's good advertisement. Invite the ski area PR men; better yet - women. But ask them to bring movies used for training skiers. Some areas must have some means of assisting its instructors. Has anyone ever had a session on First Aid for the ski slope?

The articles in the Sitzmarke about riding lifts, being in shape, etc. are about the only source of realistic skiing enlightenment we have. A beginner skiing program now and then at the first of the ski year and maybe during the middle of the season would not hurt membership or attendance.

Let's make the programs more realistic and applicable to the members of Space City Ski Club. Make the ski programs compatible with us Texans who are more at home in the 98% humidity with Bar-B-Que and beer than on the slope with a pair of 190 cm. skis and cumbersome clothing. The 'Fantasy Flicks' have become a bore and are not enlightening. Attempt to make some of the programs worthwhile and educational, and perhaps the injury frequency will decrease.

Sincerely
Ed Taylor

by Linda MacFarland

Just follow the arrows and you arrive at the wooded gardens of The Bavarian Gardens on Feagan Street. It was about 8 o'clock when the SCSC sausage and sauerkrauters began arriving for an evening of eating, drinking, dancing and socializing.

The gardens offered an assortment of home style German food such as Bratwurst, Knockwurst, and Polish sausage, with plenty of extras like sauerkraut and hot German potato salad and your beer -- How would you like it: light, dark, canned or in a pitcher?

Second only to drinking and eating was dancing to the music of the Oompha band. The entertainers seemed to be able to play a little bit of everything, you name it - they improvised. Polka's were their specialty and some of us really got down to it. Yes, all the way down as some Club members took quite a spill on the concrete slick dance floor. How are your bruises Carl Barber and "Judith-from-England?" Then there was Eddie Ek cutting through the sawdust with his cowboy boots. Sy Liebergot also show-

ed us a little of his action - on the dance floor - last I saw he was still standing.

To add a bit of local color you could find Harry Beard quite decked out in his lederhusen. He kept Nancy Scott and Marjean Doucette busy with the polka. Not quite in tune with the same custom was Pat Blair in her blue jean coveralls.

Others were just enjoying the socializing. The evening became quite profitable for Jeanette Thomas and Bob Marwin who after discovering they were both planning on painting their townhouses Saturday, decided to pool their resources and help each other. We also had one non-stop talking socializer. Violet Armour, Vanessa Vajdos and Donato Barnette listened to her over a couple pitchers of beer and I hear she was still going strong after everyone

bavarian gardens

Above left: Ann McIntyre, Bill Brooks, Jim Plummer and Layna Adams. Below left: Ted Widmer looks on as Sy Liebergot shows Linda MacFarland a new polka technique. Above right: Harriet Walduogel, Carl and Vivian Barker. Below: Bob Olsen, Jim and Ann McIntyre.

had left.

Bob Olsen found a very suitable home close to the beer stand - it sure was an active spot. Minglers Rita Marsh, Marie Brocato, Sam Livingston, Bronson Mann and Margaret Fraser were never seen in the same spot twice.

Jim and Ann McIntyre, Virginia Blalock and Randall Smith seemed to enjoy eating and drinking while Jim Plummer just enjoyed the drinking. Wayne Cook, who tried to avoid it, was forced into a polka lesson from Nancy Scott -- good thing for Wayne it was the last polka of the evening. By the way, Finn Runfalo -- where's that \$1.75 pitcher of ice?

Unfortunately the 80+ SCSC members in attendance were all still going strong at 12:00 as the Gardens closed . . . Sorry Folks!

Eatzmarke

by Bob Neiman

As everyone knows, it's too hot in Houston during July to develop an appetite. However, the climate is just right for consuming your favorite beverages. Besides, it's a good way to lose the ten to fifteen pounds of excess weight you've picked up during the year. In case you're looking for a new place to imbibe, you might find one in the following list:

..... *CHEAPIES*

THE BROWN BARN TAVERN (West of town on Westheimer) Ride your motorcycle out Westheimer and drink beer and play pool with the local rice farmers.

THE DARK HORSE (5706 Richmond near Chimney Rock) Inflation hasn't hit here. Mixed drinks and beer. A good atmosphere for solving the world's problems.

ROZNOVSKY GROCERY and HAMBURGER STAND (5719 Feagan at Birdsall) Beer is fifty cents and the hamburgers are great! A good place on Saturday afternoon. Jim Plummer and Ann Rienstra have been spotted here frequently.

WESTHEIMER GOLF CENTER (5411 Chimney Rock) The best value in Houston - Budweiser is thirty cents per can - open every night until ten.

... *QUIET and COMFORTABLE* ..

SWISS CHALET RESTAURANT (511 South Post Oak Lane) A good place to socialize with fellow SCSC members after the Monday meetings.

LA PAVILLON (1415 Post Oak Park) Saturday night - "Paris After Midnight". Sounds good, but this place is expensive and the best thing about it is the wallpaper in the men's restroom.

THE POTTING SHED (behind Jeremiah's Greenhouse - 1399 So. Voss Road at Woodway) Very comfortable, contemporary decor, small dance floor with a trio for listening or dancing.

THE BIG MOUTH FROG (2727 Crossview - just off West-

heimer) An excellent singing-guitar playing duo in the balcony bar. Comfortable seating.

VARGO'S (2401 Fondren - just off Westheimer) A comfortable bar with live entertainment for listening and a view of a beautiful garden. Try walking across the swinging bridge as you leave.

STEAMBOAT SPRINGS (4919 West Alabama) Quiet, apres ski atmosphere with a folk singer. Deli sandwiches, Saturday night only.

THE FRENCH QUARTER BAR (on the mezzanine level in the Whitehall Hotel - downtown on Smith Street) An excellent bar after work or before dinner.

CK's (atop the Houston Host Hotel at the Houston Intercontinental Airport) Next time you have a flight, get there early and try this revolving bar. You can take the train over, have a drink and get back before you would even be served in the terminal bars.

..... *NOISY and FUN*

LA BASTILLE CLUB (716 Franklin-downtown, Market Square area) Can be a good place, depending on the name entertainment appearing. However, New Year's Eve is a crowded rip-off.

GALLERIA ROOF (atop Houston Oaks Hotel - Galleria Shopping Center on Post Oak) Good entertainment for dancing and a nice view. Usually crowded. Good happy hour hors d'oeuvres.

DADDY'S MONEY (5250 W. Alabama) The Friday afternoon place to be.

GRIF'S SHILLBLAGH INN (3416 Roseland) Great on Saint Patrick's Day. During hockey season, they take a bus to the Aero's games.

TGI FRIDAY's (5010 Richmond) Admit it, we've all been there. Food, drinks and Tiffany lamps.

RUBAIYAT RESTAURANT and BAR (7011 Southwest Freeway) They were having a brawl so I didn't stay long. Live band and dancing.

747 CLUB (Westheimer between Winrock and Fountainview)

Raunchy but harmless. Be sure to check out the waitress who had her nipples pierced in Las Vegas. This place seems better if you make it one of your last stops for the evening.

..... *PLASTIC*

ALEXIS RESTAURANT AND CLUB (6260 Westpark) A plastic disco.

THE PLACE ACROSS THE STREET (6520 San Felipe at Voss) A plastic disco for lonely people.

J.K's CLUB (2637 Winrock between San Felipe and Westheimer) The newest plastic disco, frequented by some of the best bumpers in town and presented in the round.

..... *OFF BEAT*

THEODORE'S 20th CENTURY FOX (304 Avondale - just off Westheimer) Entertainment for listening. Take your pick of several cozy rooms off the patio. A favorite spot of Bob Olsen.

LA BODEGA (2402 Mandell - Montrose Area) A very interesting bar with intricate wooden walls. Entertainment includes your choice of checkers, dominoes, backgammon or chess while you drink. The restaurant upstairs serves breakfast only and is open from midnight until noon.

.. *PLACES I HAVEN'T BEEN...*
.. *BUT WOULD LIKE TO TRY...*

GILLEY'S CLUB (4500 Spencer Highway, Pasadena) A haven for kickers.

BOCCACCIO 2000 (402 Lovett - Montrose Area)

BOBBY McGEE'S CONGLOMERATION (10822 North Freeway).

.. *A PLACE I HAVEN'T BEEN...*
... *AND DON'T WANT TO GO...*

FARM HOUSE CLUB (3535 Westheimer) If you try this one, be sure to take someone of the opposite sex with you for protection.
